

Elements of a Violence Mitigation Plan for Health Care Facilities and Outpatient Mental Health Programs

Providers of mental health services in all settings seek to maintain a safe environment to promote care and healing. This is best achieved by an organizational commitment to:

- Sponsoring and engaging in a violence prevention and mitigation program
- Understanding and addressing the root causes of violence
- Equally valuing patient and staff safety
- Mutual engagement and collaboration with all care team members: staff, patients/consumers, and their families

Actions: "THE WHAT"	Best Practices: "THE HOW"
I. SCREENING / RISK STRATIFICATION	
<p>Screen all patients</p>	<p>Evidence-based violence screening tools:</p> <ul style="list-style-type: none"> • The Brøset Violence Checklist (BVC) at www.riskassessment.no/ • Oregon Association of Hospitals and Health Systems Risk of Violence Assessment tool at www.oahhs.org › files › 5a WPV risk assessment tool • V-RISK-10 – Sifer at https://sifer.no/verktoy/v-risk-10/ • STAMP - Quick Safety Issue 47: De-escalation in Health Care at www.jointcommission.org/quick-safety/quick-safety-47-deescalation-in-health-care/
	<p>Evidence-based screening tools for high-risk medical conditions linked to violent behavior:</p> <ul style="list-style-type: none"> • Richmond Agitation Sedation Scale (RASS) at www.mnhospitals.org/RASS Sedation Assessment Tool.pdf
	<p>Process and policy to implement use of the tool and audit its effectiveness</p>
II. COMMUNICATION OF RISK	
<p>Environmental communication</p>	<p>Risk communication process and policy (e.g., sign on door)</p>
<p>Electronic record communication</p>	<p>Use of records to identify risk and history of violence (e.g., alert flag), and documentation of new incidents for future violence prevention and risk management</p>
<p>Verbal communication</p>	<p>In-person communication of potential risk (e.g., huddle, report, shift change) and development of care plan</p>

Actions: "THE WHAT"	Best Practices: "THE HOW"
III. PREVENTION / INTERVENTION / POSTVENTION	
<p style="text-align: center;">Prevention</p>	<ul style="list-style-type: none"> • Staff training in implicit bias in health care, trauma-informed care, de-escalation, situational awareness, environmental safety, appropriate limit setting, organizational policies, and processes • Person-centered, relationship-based care models • Individualized plan of care/coping agreement, including assessment of strengths and resiliency <ul style="list-style-type: none"> • CPI – Nonviolent Crisis Intervention® • Pro-ACT – Professional Assault Crisis Training • https://therapeuticoptions.com/
<p style="text-align: center;">Proactive, clinically focused intervention with de-escalation</p>	<ul style="list-style-type: none"> • Establish a Behavioral Emergency Response Team/ Behavioral Escalation Support Team • Establish tiered response codes as needed • Review Psychiatric Rapid Response Team Abstract at https://pubmed.ncbi.nlm.nih.gov/31090558/
<p style="text-align: center;">Threshold for security-focused intervention</p>	<ul style="list-style-type: none"> • Understand the risks and benefits of a security-based intervention • Clearly define threshold and process: Who initiates a security-based intervention?
<p style="text-align: center;">Post-incident debriefing for all parties involved</p>	<ul style="list-style-type: none"> • Procedural debriefing • Therapeutic debriefing opportunity, peer support • Patient debriefing
IV. ONGOING QUALITY IMPROVEMENT	
<p style="text-align: center;">Root cause analysis process</p>	<ul style="list-style-type: none"> • Establish a standardized tool and process to review all events
<p style="text-align: center;">Report</p>	<ul style="list-style-type: none"> • Establish a standardized tool and process for reporting that meets both external and internal requirements
<p style="text-align: center;">Review/Analyze</p>	<ul style="list-style-type: none"> • Develop a committee to oversee the review process • Develop a committee to audit event reports and track data so trends can be analyzed and reported per Cal/OSHA requirements
